

Paragon Oil Name Change

Service Bulletin 170707 applies to all Comark Paragon transmitters and details the name change of the oil used to cool the IOT.

Comark has recently learned that the cooling oil used in the Paragon Transmitter has had the descriptive name changed by the vendor. The part number, 608677-01, remains the same.

The oil was previously branded "ALPHA-2" and is now branded "ALPHA-4". The formula of the oil remains the same. ALPHA-2 and ALPHA-4 oil can be mixed.

Going forward, please order Comark part number 608677-01 OIL, INSULATING ALPHA 4 (5 GAL) for your Paragon Transmitter.

Here at Hitachi-Comark, we are constantly striving to improve the satisfaction of both our new and existing customers. Continually working to improve the reliability of the installed fleet of Hitachi-Comark transmitters in the field is another way in which we demonstrate our commitment to you, our valued customer.
